## Seeking WebMethods Developer

Location: Fountain Valley, CA area  
Payrate: DOE  
Contact: [jobs@IntellectIT.com](mailto:jobs@IntellectIT.com)

Please submit H1b copies along with cover letter and resume.

**Job Description:** This position is for an experienced WebMethods developer with specific skills in Integration Server and Designer Workstation, and 7+ years of experience. Requires strong analytical skills, problem determination and debugging, attention to detail, team work and excellent communication skills. Needs to communicate at different technical levels, from the application architects to the end user.

**Responsibilities:** This role requires demonstrated experience with the technologies listed in the Required Skills section. The ideal candidate will excel in our fast-paced, collaborative, customer-first environment and will contribute in a variety of ways.

### **Required Skills & Experience:**

- Over 7 years of extensive experience using WebMethods, including Integration Server and Designer Workstation.
- Demonstrated experience using Rest APIs Over Json
- Experience with Centrasite (Lifecycle and API virtualization) and Centrasite Mediator
- Experience with API Portal Gateways
